Dear Doug,

We want to thank you all for your interest in the arts and our youth. We want to thank you all for giving us an evening of entertainment that we are still reliving. We hope we can have you all back with us again! The young people and their parents have told us over and over again how much they enjoyed the evening. I am sending a newspaper clipping from a young reporter from our hometown paper. He had a great time and has let our community know what they missed! In it is the quote from Todd you might be able to use!

Sincerely,

DeAnn Triboulet  
Executive Director
